Hi Kathleen - Tim informed me about this prep meeting late yesterday afternoon. It conflicts with our weekly Water Division AD's meeting, so I won't be able to participate.

As we discussed on 7/17 in the context of Bay Delta roles, in my opinion, it makes sense for Tim and Erin to be responsible for the Water Division's input on the NEPA review of the CA Water Fix. At the time of that conversation you raised a different perspective, so I agreed to participate. However, since I wasn't included in the invitations for next week's meetings, I suppose you may have changed your mind. This is fine with me.

Tim also informed me that a meeting with Jared has been scheduled for next Thursday at 215. I'm disinclined to participate in that meeting given that I won't have the opportunity to participate in Monday's prep meeting.

Let me know if you'd like to discuss.

- John
